

WELCOME

A warm welcome to all existing and new members of the Network.

SP3

Thanks to those of you who attended the Third International Conference on Photochemistry (photograph below) The conference was a great success (ca 200 participants from 32 nations) and I would like to congratulate again the prize winners in the Post-graduate Symposium.

1st Prize: Jan-Oliver Kliemann

Runners Up: R MacDonald, J Stoetzner, P Zadadski,

PA Bourgeois

New Events

The next meeting of the Network is being held at the University of Ulster in Belfast on 1st September 2010

http://www.ukspc.org.uk/events/network_meetings/20100901_ulster

(all details on web site)

For this meeting only an increase to **£300** for travel, accommodation and subsistence has been approved for all members. If you plan to come along let us know especially if you wish to present at the meeting.

Video Demonstrations

We have installed a new page on the Network web site which gives useful demonstrations of semiconductor photocatalysis. At the moment there is one <http://www.ukspc.org.uk/video> of the photoreduction of MB by P2S, which can be used to demonstrate the effect and illustrate the Langmuir-Hinshelwood type kinetics often observed in semiconductor photocatalysis

If you have any suitable short demonstrations of SPC in action—please send in a brief script and movie for the new 'Demonstrations' Network website page <http://www.ukspc.org.uk/video>

Forms

Network Members Directory Forms and Photoactivity Methods Survey

Thanks to those of you who have completed and returned the Directory forms. These completed forms are available for viewing by members only on the Network website. The form is available at <http://www.ukspc.org.uk/forms>

Expense Claim Forms

When completing these forms <http://www.ukspc.org.uk/funding> please note that only full receipts (not credit card slips) will be authorised. Sorry for this—but it's a University accounting rule; so don't throw away those receipts

Other Matters

American Chemical Society—
240th National Meeting August
22-26 2010

The symposium will highlight new developments in heterogeneous catalysis. For more information please contact Prof Alexander Orlov, aorlov@notes.cc.sunysb.edu
